DECEMBER 2016 NEWSLETTER

In efforts to communicate more with the dentists of Toronto the Toronto Academy will begin circulating newsletters with Academy and Component Society updates.

2016 WINTER CLINIC was held on Friday November 11, 2016.

For the first time at the Cineplex Empress Walk, North York. The event was an amazing success. All 10 cinemas were used and attendees raved about the clarity of seeing presentations on a large screen, state of the art audio and visual and the theatre environment. There were an abundance of Core 1 courses at no additional cost and these sessions were very well attended. The exhibitors located in the common areas outside of the cinema rooms were busy throughout the day and we thank those companies in showing their support for the Academy's educational programs.

Friday November 10, 2017 Winter Clinic will return to the Cineplex Empress Walk with the headline speaker Howard Faran. There will be many Core 1 courses to help you complete your requirements for the end of the RCDSO's 3 year credit cycle. Save the date now.
